# Australia at MIPCOM

Australian screen content has entertained, intrigued, challenged and delighted audiences around the world for decades. Our industry comprises many skilled professionals, who have substantial international production experience and an in-depth understanding of the marketplace.

Australian companies work across all genres including children's, drama, animation, documentary, features and digital media. They know how to raise finance and how to deliver quality programs designed for international audiences. Australians love to tell good stories: *stories that travel with you.*

Profiled here are Australian screen content creators as well as distributors, sales agents, buyers and other specialist providers.

It gives me great pleasure to introduce you to the Australian companies doing business at MIPCOM 2015.

**Graeme Mason**  
CEO, Screen Australia

A handwritten signature in black ink, appearing to read "Graeme Mason".

# Screen Australia

We are the Australian Government's major screen funding agency.

We develop and finance high-quality, innovative and commercially attractive projects designed with audiences in mind. We conduct research, assist the development of local screen culture, and market Australian talent and screen content domestically and internationally.

Screen Australia also administers the Producer Offset incentive and Australia's official Co-production Program.

## What is the Producer Offset?

The Producer Offset is a rebate on the production expenditure incurred in Australia when making Australian film and television. Not all expenditure qualifies, but the Offset can be worth up to 20 per cent of Australian spend in the case of television, and up to 40 per cent in the case of film including feature documentary.

## Official co-productions can access the Producer Offset

Film and television made under Australia's official co-production arrangements are automatically regarded as Australian, and therefore eligible for the Producer Offset – providing they meet other criteria too.

Australia has co-production arrangements with Canada, China, France, Germany, Ireland, Israel, Italy, Korea, New Zealand, Singapore, South Africa and the UK.

## Location and PDV Offsets

Non-Australian productions taking advantage of Australia as a filmmaking centre can access the Location Offset for foreign productions filmed in Australia, or the Post, Digital and Visual Effects (PDV) Offset for productions that use Australia's post-production and visual effects talents, irrespective of where filming occurred.

For further details on the Location and PDV Offset visit [www.ausfilm.com.au](http://www.ausfilm.com.au)
